ABOUT US

Delta Landscaping Services offers comprehensive garden maintenance services that include the maintenance of hard and soft landscaping, improving the value and status of each individual garden landscape. We strive to maintain gardens and landscapes through the implementation of innovative and cutting-edge horticultural processes.

Our landscaping services are provided to residential and commercial clients, ranging from concept designs to turnkey projects. We take pride in providing landscaping services tailored to our clients' specific needs and budgets.

As part of our service offering, we will:

- Place trained, experienced staff on site
- Provide them with uniforms, PPE and specialised tools and equipment
- Tailor a garden maintenance and/or landscaping plan according to your needs and create a schedule accordingly
- Maintain landscaping equipment and PPE
- Conduct weekly site inspections and attend meetings as and when requested.

OUR APPROACH

The service is executed in accordance with a detailed schedule that is encapsulated in a service level agreement that stipulates the frequency and scope of services in great detail.

An intensive inspection and auditing approach is also followed and project managers, supervisors and landscapers need to complete checklists indicating that tasks and/or inspections have been completed.

In keeping with this approach, areas are allocated to specific landscapers that are then held responsible for the cleaning, maintenance and neatness thereof.

LEVEL 1 B-BBEE

Delta Landscaping Services is a Level 1 B-BBEE contributor and is committed to developing the skills of people from previously disadvantaged backgrounds through employment opportunities, development programmes and by assisting in community improvement projects.

OUR VISION

To be a leading landscaping and garden maintenance service provider with a solid footprint built on trust, quality and reliability.

OUR MISSION

To assist our clients in achieving a sustainable and aesthetic natural environment through cost-effective landscaping and garden maintenance services.

OUR VALUES

Our values define our business and we ascribe to the concept of "Life is a journey, enjoy the TRIP".

Teamwork

Respect

Integrity

Passion

TRAINING

Delta Landscaping works in collaboration with Delta Facilities Management, which is a professional Services SETA (SSETA) accredited training provider focusing on the facilities management industry.

Our goal is to increase the productivity and effectiveness of employees through our quality learning experiences. We provide learners with a solid theoretical foundation and we are focused on establishing practical competencies to produce landscapers who intend to find gainful employment in the garden maintenance and landscaping industry.

The Academy boasts the highest standards in garden maintenance and landscaping training, adhering to the requirements of the skills development legislation of South Africa to ensure high competency levels and professionalism in your company.

AFFILIATIONS

All garden maintenance products and equipment used by Delta Landscaping Services are SABS approved to ensure safe operation and quality.

We are part of the following affiliation:

OUR SERVICES

GARDEN MAINTENANCE AND LANDSCAPING

We provide standard garden maintenance and landscaping services to the following industries:

- Aviation (airports' gardens)
- Commercial/Retail (shopping centres, conference venues and hotels)
- Educational (colleges and universities)
- Industrial (office parks).

HARD AND SOFT LANDSCAPING

Our attentiveness to our clients' specific needs combined with our vast experience in the landscaping industry provides us with the ability to create the perfect balance between hard and soft landscapes.

SPECIALISED LANDSCAPING

Our specialised landscaping services are tailored to your specific budget and needs.

VERTICAL GARDENS

Whether you require a visually-appealing wall or a delicious vertical herb or vegetable garden, we have the required experience and resources to bring your vision to life.

IRRIGATION SYSTEMS

We have vast experience in the installation of manual or automatic irrigation systems.

OUR PROCESS

INITIAL SETUP

- Place trained, experienced staff on site
- Provide staff with PPE and specialised tools and equipment
- Tailor a landscaping plan according to client needs.

ONGOING OPERATIONS

- Consumables are ordered on a monthly basis
- Types of consumables and quantities depend on site and requirements
- Use of colour codes to identify suitable use areas.

INITIAL OPERATIONS

- Create schedule for day-to-day operations
- Educate staff on client requirements
- Maintain PPE
- Weekly site inspections
- Advanced and specialised services (lawn analysis and treatment).

PPE

- Supply staff with proper uniforms
- Supplying staff with required protective clothing (boots, dust masks, wide-brim hats, gloves, safety goggles etc.)
